Work: \_\_\_\_\_

If you have a prepared résumé, please submit that in place of the relevant parts of this application.

Education: include the institutions & years attended.

Degrees & Certificates Attained.

Employment History.

Affiliated Organizations: Please include any organization that can hold you therapeutically accountable and to whom you pay an annual fee. e.g., Ontario Society of Psychotherapists (OSP).

Non-Traditional Training and Education or Relevant Life Experience: If you do not have a degree or certificate from a training institution, and you feel strongly that you have the equivalent in life experience, please submit a separate page outlining your experience and why you feel that this experience prepares you for this level of training.

Record of Personal Therapy History: Please include what type of therapy and for how long.

Record of any significant health conditions that would be useful for the trainer and assistants to be aware of when working with you and your body. Please use additional paper if necessary.

Ongoing therapy is a requirement at this level of training. Because the training is about entering fully into our bodies, and our bodies are where the traumas are stored, it is necessary to have the container of ongoing therapy to complete and support the deep transformational work that can take place. Personal healing does occur because it is an experiential training, but it is not a personal therapy group. Each participant is responsible for the care of their own "wounded self" during and after the training.

I understand that ongoing personal therapy is required for me to participate beyond the Intermediate level. Should I begin applying these techniques in a therapeutic practice, professional supervision must also be in place. My current arrangements are as follows:

Personal therapy

Professional supervision

What work am I doing now and how do I imagine incorporating Psychodramatic Bodywork® into my work?

Psychodrama Training is a great asset in the Advanced level. It is a requirement in some specific Advanced level

groups. At this time, it is not required in all groups. What if any Psychodrama training do you have? Please indicate the level of certification and name the trainer(s) and training centre and the number of hours achieved.

By signing and initialling below, I am agreeing to the following Advanced training requirements.

1. A minimum of 20 training days are required to complete the advanced training. I understand that I am financially responsible and committed to full fees for each unit, even if I am unable to attend for any reason. Initial \_\_\_\_\_
2. No alcohol, marijuana or non-prescription drugs are to be used during training or practicum days and evenings. Initial \_\_\_\_\_
3. I am committing to ongoing personal therapy for the duration of this training. Initial \_\_\_\_\_

Signature: \_\_\_\_\_ Date \_\_\_\_\_
